

CONTINENTAL SUNDAY WILL BE COMBATTED

SYDNEY, N. S. W., Dec. 22.—The Australian theatrical alliance is combining with the Anglican synod to prevent the introduction into Australia of the Continental Sunday. It has been announced.

The synod already has adopted a motion strongly deprecating Sunday sport and it has received a letter from the theatrical alliance asking its co-operation in having all places of amusement closed on Christmas day and Good Friday, because at least two days of the year should be rendered sacred and not allowed to drift into desecration and degradation.

ASK REMOVAL HUGE DRY DOCK TO MANILA

MANILA, Dec. 22.—Steps have been taken by Governor General Wood to remove the floating drydock, the navy at Olongapo, Subic bay, to Manila, as part of a plan to make Manila the foremost port in the Far East. The governor general took up the matter through the bureau of interior affairs at Washington and it is said the war and navy departments will decide the practicability of its removal.

The transfer of the navy drydock, the Dewey, to Manila, said Governor General Wood, will add greatly to the shipping facilities here and incidentally make Manila the terminal port of the Far East. The United States shipping board ships as well as others could come here and use the dry dock.

PRINCE AAGE, DENMARK, JOINS FRENCH ARMY

COPENHAGEN, Dec. 22.—Prince Aage, son of Prince Waldemar of Denmark who renounced his throne to marry an Italian countess, has accepted a commission as major in the French colonial forces.

Prince Aage, some years ago was an officer of the French foreign legion but left to join his own regiment of the Danish royal guard. He will be sent to Morocco, and will be accompanied by his wife and little son.

BOXING FORBIDDEN IN GERMAN PUBLIC SCHOOLS

BERLIN, Dec. 22.—Boxing has been forbidden in the public school buildings of Berlin. In announcing the prohibition the municipal board of education gave no reason for the decision, but simply notifying the schools that the gymnasium could no longer be used for this form of sport.

Organizations which have been conducting the contests have, in some cases been forbidden further access to the buildings. In other instances the societies are inaugurating substitute exercises. The Berlin Boxing union has taken steps to have the action reversed.

SOLDIER CLEANLINESS RECORDED BY ARGENTINA

BUENOS AIRES, Dec. 22.—Argentine soldiers in the future must not only clean their teeth, but manicure their nails. An order making obligatory the use of the tooth brush, nail scissors and nail forceps by the troops effective March next, has just been issued by the new minister of war, Col. Agustin Justo.

VALUABLE BOOKS ON AERONAUTICS PRINTED

LONDON, Dec. 22.—The council of the royal aeronautical society announced recently that through the generosity of the trustees of the Carnegie United Kingdom trust it has been able to arrange for the purchase of a large number of valuable historical books on aeronautics which would otherwise have been sold to an American company.

STURDY OLD WHALER IS TO START LONG CRUISE

SAN FRANCISCO, Dec. 22.—Adventure seekers will man a sturdy old whaler, the Narwhal, when she sails from the port of San Francisco about Jan. 1, on a year's cruise in the South Pacific. Captain Charles Arrey, a veteran of many seas, will command.

The hand-picked crew will act as apprentices and part owners, for each member must subscribe \$800 toward outfitting the boat. They also will man the boat, but to make sure the craft reaches its destination, the captain is taking along ten deep water sailors.

It will be a trading expedition. Captain Arrey said recently, and denied reports that the Narwhal was heading south in search of treasure buried by Germans during the war. The first port of call will be Samoa.

ALASKAN OIL TOWN REMINDS OF OLD DAYS

ANCHORAGE, Alaska, Dec. 22.—Prices paid in the gold rush days of Alaska again are being charged at the new Alaskan oil town of Kanatak. In the Cold-bay oil fields, where the Standard and Associated companies are planning to drill.

DEVELOPMENT OF EUROPE IN BIG WAY IS FORESEEN

LONDON, Dec. 22.—"We are entering a new chapter in the economic history of the world a period which will, I believe, surpass in the intensity of its development the wonderful forty-four years preceding the great war," Edgar Crammond said. He is an English financial writer.

"This country, he said, is called upon to undertake tasks of reconstruction and reconstruction such as her broad shoulders have never carried and she is the one power organized and equipped to bring order out of the great chaos.

"Our two great duties must be first to secure the disarmament of Europe and secondly to solve the problem of reparations and international debts. Now that we have practically arranged for the payment of our debt to the United States, it might be possible to invite American co-operation with us in a policy of help and forbearance. To carry out these great tasks it is essential that

U. S. MOTOR CARS ARE MOST PLENTIFUL

WASHINGTON, D. C., Dec. 22.—There are enough motor vehicles in the United States to take the entire population of the country for a ride at the same time, says the bureau of public roads of the department of agriculture. At the beginning of 1922 there were 4.2 motor vehicles for each mile of road in the United States.

One hundred and twenty vehicles per minute was the rate at which motor vehicles passed a bureau observing station on a trunk highway in Massachusetts recently. This rate was continued from noon to 10 p.m. A tourist recently driving through four states was required to buy four different sets of lenses to make his headlights comply with state regulations. In this the bureau seeks great need for more uniformity in highway regulations.

Federal aid highways placed under construction in September amounted to 1189 miles.

We have freedom from governmental control of the financial machinery of the country. The great joint stock banks, the Anglo-foreign banks and the great British mercantile houses should not be allowed to exercise a greater influence in the shaping of our financial policy than they have enjoyed since August, 1914."
